ONE DAY WORKSHOP ON TEAM BUILDING SKILLS

Avanthi P.G. College organized a workshop on team building skills in collaboration with TASK in college campus on 30th March, 2022. Ms. Muznabeen Ajmeri, Senior trainer, TASK was the key speaker and the objective of this workshop was to building communication, solving problems, and developing trust and cooperation skills.

By fostering cooperation and teamwork, team building draws individuals closer. Getting outcomes is one of the most compelling motivations for team creation. The trainer emphasized the importance of a well-planned team-building exercise in improving interpersonal communication. The team building activity ideas encourage true relationships, deeper talks, and processing, which helps to support long-term team building. Later, the trainer conducted team-building activities in which students learned how to improve communication, solve problems, and develop trust and collaboration skills.

INDUSTRIAL VISIT TO NRSC

Avanathi P.G. College organized an **Industrial visit to NRSC**, Jeedimetla in collaboration with TASK on 1st April, 2022. The objective of the industrial visit was to make students aware on how various testing, remote sensing, and satellite activities are carried out in companies and to give them a sense of corporate culture.

Mr. T. Shankar Prasad, Scientist, NRSC, gave us an overview of the company's history and how it was founded, as well as showing us movies connected to the space programme. They have explained clearly how the communication will be going on in the organization. They showed us the pictures which had been took from the Indian satellites exclusively. They even compared the pictures of American Satellites with our satellites. After this, it was followed by visiting the campus and they even exhibited the demo satellites of ISRO and explained about the parts of the satellites and functioning of satellites.

Students gained a thorough understanding of the NRSC's exploratory investigations on weather and climate, as well as monitoring and supervision of natural resources, allowing the students to bridge the gap between academic learning and practical experience.

A TWO DAY SKILL DEVELOPMENT PROGRAMME ON MICROSOFT EXCEL

Two day workshop was organized on Microsoft Excel in collaboration with TASK on was organized on April 17th -18th, 2022. Mr. Balu Banothu was the trainer for the workshop. On day one The trainer introduced the use of simple functions like sum, average, product, division, max, min, text functions and various ways of formatting the entered data, explaining lucidly with the help of the dataset shared with the students later he extended the discussion on the use of standard operators like AVERAGEIF, COUNTIF, and mathematical and statistical functions, which helped work out a number of problems from the data set. Next day the trainer taught them sorting and filtering, Lookup functions, Data validation he also taught the various paste special techniques that are available with EXCEL and also took up the topics of creating charts and slicers, how to protect an excel worksheet and also the various tools of data analysis in EXCEL the session ended with the trainer giving some practice problems to solve.

THREE DAYS WORKSHOP ON 21st CENTURY TRANSFERABLE SKILLS IN COLLABORATION WITH TASK

From the 27th to the 29th of June 2022, a three-day workshop on 21st Century Transferable Skills was organised in collaboration with TASK and the trainer for the session was Mr. M .Praveen. The session's goal was to help participants develop their talents and manage themselves and cultivate the habit of brainstorming to develop a sense of personality identification that will assist them in dealing with the problems of today's business world. Demand for numerous occupational skills and areas of expertise has decreased as traditional jobs are replaced by automation and advancing technologies. The demand for transferable abilities, as well as new knowledge and evolving competencies, has grown. Employees have long recognized the importance of professional development and lifetime learning, but even those with fundamental capabilities and the opportunity to gain new skills or use those they already possess to prove their worth. Later, the trainer conducted activities for students where the trainer through games help students gain some skills.

ONE DAY TRAINING PROGRAMME ON PRESENTATION SKILLS IN COLLABORATION WITH TASK

Avanthi P.G. College organized a one day training programme on presentation skills in collaboration with TASK in college campus on 28th July, 2022. Mr. Mark Louis, trainer, TASK was the key speaker. The training programme was aimed at how to be a skilled communicator by getting over stage fear and to Develop Powerful Presentation skills. Sir began the session with an activity and introduced the topic of 'Presentation Skills' to the students. This issue was thoroughly discussed because it is a necessary talent to have in the corporate world. Sir spoke about how to give a decent presentation, the Do's and Don'ts of giving a presentation, and the most typical mistakes that people make when giving a presentation. Sir also emphasised the necessity of voice modulation in conveying the presenter's message to the audience clearly and effectively. The training concluded with participants providing oral feedback.

IDEATHON YOUNG ENTREPRENEURS MEET IN COLLABORATION WITH TASK

Avanthi P.G. College organized ideathon young entrepreneurs meet in collaboration with TASK in college campus on 17th & 18th August, 2022. The judges for the programme were Dr. R. Hafeez Basha, Manager- OTBI, CFRD, OU and Mr Suresh Tanneeru, Founder & CEO- TechiesNest & VP- Dataflix and the Chief Guest for the event was Mr. Shrikant Sinha, CEO, TASK with Mr. C. Srinivaulu, Dept of Zoology, & Incharge Director OTBI as Avanthi Advisor.

The competition aimed to foster the spirit of innovation and tap into students' great capacity to think big and dream of futuristic ideas by allowing them to showcase their talent and propose out-of-the-box open innovation concepts. Students were given the opportunity to present ideas on some of the most pressing issues we face in our daily lives. It ushers the next generation of evolution by incorporating new approaches for instilling a startup and innovation ecosystem culture. The IDEATHON, in particular, encourages young minds, to think outside the box. The event had no registration fee and was open to all UG/PG students in the twin city. There were 42 applications, with 36 individuals from various UG and PG colleges taking part. Ideation 2022 was conducted in two rounds. In the first round, Participants must submit the problem they have picked, as well as a concrete strategy for their solution. The results were announced that evening by the judges. The finale was held the other day, with Mr. Shrikant Sinha, CEO of TASK, awarding cash awards to the first three winners and certificates to all participants. Avanthi's ED-Cell makes every attempt to inspire young entrepreneurs to demonstrate their innovative abilities and potential to improve the entrepreneurial ecosystem. Mr. Shrikant Sinha, CEO of TASK later signed the MOU with Avanthi PG College.
