| 8.   | Description          | On March 2nd, 2024, we had an industrial visit to Shri Kalaa Punarvi Handloom at Pochampally. Despite its small size, Pochampally is globally renowned for its superior quality hand-woven fabric. Our hosts, Mr. Ramakrishna and Bharath, patiently explained each stage of the fabric weaving process, sharing even the smallest details with us. It was truly fascinating to witness the skillful weavers at work and to learn about the entire process, from manufacturing the silk and cotton threads to designing the fabric patterns, dyeing, and weaving using traditional tools and machines. We were given the opportunity to visit every workstation, interact with expert weavers, and observe the process firsthand, making the experience incredibly enriching. This visit showed us that learning can be enjoyable and engaging. |
